

WOOD PRODUCTS

SOLVING TRACEABILITY

THE INNOVATIVE TRACEABILITY PLATFORM FOR WOOD PRODUCT MANUFACTURERS

CodeIT is unique as it is hardware brand-independent and fully customizable = one flexible and scalable solution for any or all of your existing and future production lines. CodeIT puts you in control with full product traceability, unparalleled connectivity for optimal systems integration, and comprehensive shop-floor data management options that include:

- Automatic coding, marking, labeling, and identification of sawn, planed, and engineered wood products and packages with real-time and variable production information anywhere in the production flow.
- End and face marking or labelling individual units.
- Labelling and side marking bundles, wrappings, and packages.
- Extended data utilization to enhance overall production and warehouse efficiency.
- Data Capture. Data Monitoring. Real-Time Reporting.
- Automation. Systems Integration. Digitalization. Rapid deployment and implementation.

The CodeIT Multi-individ™ Coding Solution

Specially designed for wood product manufacturers to meet the need to operate with more products per carrier to increase production output.

- Increases productivity
- Compact design saves space
- Multiple products per carrier increases production output
- Can mark up to 5 products per carrier
- Programmable track speed sync function
- Track feed speed depends on local conditions

INNOVATION

CodeIT Enterprise™ is a unique, hardware brand-independent, fully customizable software platform = one flexible and scalable solution for any or all of your existing and future production lines. CodeIT puts you in control with full product traceability, unparalleled connectivity for extensive systems integration, and comprehensive shop-floor data management options. Our goal is to enable clients to leverage their data beyond labelling and marking, to generate value, drive growth, enhance production and productivity, and ensure success in demanding markets that are constantly changing. The freedom our production traceability platform gives, and its connectivity, flexibility, and scalability, put CodeIT clients ahead.

EXPERIENCE

CodeIT has strong roots in industrial software design, coding, marking, labeling, and production automation. We understand our clients' need for rapid deployment, and flexible and scalable systems. This understanding comes from many years of working with critical business applications and our extensive shop-floor experience. Our team is committed to enabling clients to leverage their data to the full, and secure full traceability to build strong brands and ensure transparency and compliance.

DEPENDABILITY

Forward-thinking manufacturers use CodeIT worldwide. We always work directly with our clients. At CodeIT we ensure our clients are always fully up-to-date and informed. We focus on ease of operation, world-class service, and lifetime support. We deliver the control needed to rapidly respond to market changes and new demands that often dictate fast turn-arounds, short runs, and pressure on profitability. Let CodeIT be your independent partner and single point of contact for all your production traceability and production data management needs.

FOOD • FISH • WOOD • INDUSTRY

We believe we have one of the best support programs in our industry. We designed it to help CodeIT clients be more efficient and effective. It is truly a program that adds value and keeps costs down.

LIFETIME SUPPORT

SLA • SERVICE LEVEL AGREEMENT

- This option is for clients with a CodeIT Software Maintenance Agreement (SMA).
- Clearly defines response times and resources and provides other benefits such as priority and systemized feedback to improve your operations.

24/7 • ROUND-THE-CLOCK SUPPORT

- This option is for clients with a CodeIT SLA.
- Exclusive 24/7 phone number provided
- Our on-duty CodeIT Support Center (CSC) software support specialists are available to provide full SLA support at any time

CodeIT is trusted and relied on by forward-thinking manufacturers worldwide. Let CodeIT be your independent partner and single point of contact for all your production traceability needs. The benefits can be bigger than you think.

CodeIT - the innovative Nordic labelling, marking, and traceability experts, that do more.
